SUMMARY

Computer Science student with strong expertise in Data Structures and Algorithms and experience in optimizing time and space complexity. Skilled in full-stack development and seeking a software development internship to apply analytical and coding skills.

EDUCATION

- **Chandigarh University** Jul 2023 - May 2027
Bachelor of Engineering in Computer Science and Engineering Mohali, Punjab
 - CGPA: 8.87/10.00

SKILLS

- **Programming Languages:** Java, C++, C, Python
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Database Systems:** SQL, Oracle
- **Other Tools & Technologies:** Git, GitHub

PROJECTS

- **Law Virtualization Website** October 2025 
Tools: Java, HTML, CSS, JavaScript, React.js, MySQL
 - Built a web-based law virtualization platform for structured, user-friendly legal information.
 - Designed responsive and interactive UI using HTML, CSS, and JavaScript.
 - Executed backend logic using Java to ensure smooth functionality and data handling.
- **Online Shopping Application** March 2026 
Tools: HTML, CSS, JavaScript, React.js, PostgreSQL
 - Developed a full-stack online shopping application replicating a modern e-commerce experience.
 - Implemented product browsing, search, cart management, and order placement features.
 - Designed responsive UI and developed backend APIs using React.js and PostgreSQL.
- **Online Voting System** April 2026 
Tools: React.js, Java, Spring Boot, JWT, PostgreSQL
 - Developed a full-stack online voting platform for secure election management, candidate registration, and real-time vote tracking.
 - Built a responsive frontend using React.js and implemented a scalable RESTful API with Spring Boot and PostgreSQL.
 - Implemented role-based authentication (Admin/Voter) using JWT to ensure data privacy and system integrity.

TRAINING EXPERIENCE

- **DSA Intern – Chandigarh University (In-House Program)**  June 2025 – July 2025
Industrial Training Program Chandigarh University
 - Completed a 6-week intensive internship with a focus on Data Structures and algorithmic problem-solving.
 - Applied efficient algorithms to tackle 25+ real-world coding problems.
 - Optimized time and space complexity while improving coding skills through hands-on practice.

ACHIEVEMENTS

- Solved over 300 coding problems across various platforms, demonstrating strong problem-solving skills.
- Achieved a Silver Elite Certificate in Cloud Computing (NPTEL) exam organized by IIT Kharagpur.
- Participated in hackathons and technical competitions to enhance practical knowledge.
